PRAY FOR THE DREAM

Thousands of hard working young people who were brought to the United States as infants or children can now be locked up in federal detention centers and deported to a country they've never known.

The DREAM Act would stop the injustice by giving students who have grown up and graduated high school in the United States the opportunity to earn legal status through higher education or military service.

President Obama also has the executive authority to protect vulnerable populations including DREAM Act eligible students from unwarranted detention and deportation.
